

FlowHCM Employee Portal Functional Report

A concise, screen-by-screen overview of what a Softnox employee can view and perform inside the employee self-service portal.

Document Type	Employee Module — Functional Walkthrough
Scope	Employee screens only (Dashboard, My Info, Apply Leave, Payslip)
Sample User	Emp 112 — MUZZAMIL JAVEED (Sr. Frontend Specialist)
Prepared For	Softnox Management / Leadership Review
Prepared On	22 September 2026
System	Softnox FlowHCM

Confidential — for internal Softnox use. Screenshots reflect the live employee experience.

1. Document Purpose

This report explains the **employee-facing Softnox FlowHCM portal**: what each screen shows, and what actions an employee can take. It is intended for leadership review and onboarding clarity — not a technical development document.

2. Employee Access Summary

After login, an employee has a focused sidebar with three primary destinations:

Dashboard Attendance, team, announcements, leaves, payslips, weekly hours	My Info Profile, personal data, assets, leave history
Apply Leave Submit leave requests and track status	Notifications Bell alerts for news, leave approval/rejection

3. Contents

- 1. Employee Dashboard
- 2. My Info — Overview
- 3. My Info — Personal
- 4. My Info — Leaves
- 5. Apply Leave
- 6. Employee Payslip (View / Print / PDF)
- 7. Capability Checklist

Employee Dashboard

The Dashboard is the employee home page. It gives a single-view snapshot of attendance, today's punches, team context, company announcements, leave balances, payslip history, and weekly work hours.

Figure 1 — Softnox Employee Dashboard (full page)

What the employee can see

- **Monthly KPIs:** Present, Late, Absent, On Leave, and Hours Worked vs schedule.
- **Profile card:** Name, designation, Emp ID, department, team, and today's shift window.
- **Attendance chart:** Day-wise status bars for the selected month (current / previous).
- **My Team / My Managers:** View-only roster of teammates and reporting managers.
- **Today's punch:** Check-in, check-out, hours worked, and month progress.
- **Announcements:** Latest Softnox news visible to employees.
- **Leave balances:** Remaining Casual, Annual, and Sick leave with Apply shortcut.

- **Employee Payslip list:** Past months with "View Payslip"; current month as Expected.
- **Weekly hours:** Scheduled vs worked vs average chart and week table.

What the employee can do

- Switch attendance chart between **Current month** and **Previous month**.
- Open **Apply Leave** from Leave balances.
- Open a historical **Payslip** (print / save as PDF).
- Switch team widget tabs between **My Team** and **My Managers** (view only).
- Receive pulsing **notification bell** alerts for news and leave decisions.

My Info — Overview

My Info is the employee's profile hub. The Overview tab summarizes today's attendance, organizational placement, and assigned company assets.

Figure 2 — My Info · Overview tab

What the employee can see

- **Profile sidebar:** Name, designation, tenure, Emp Code, team, joining date, reports-to, email, phone.
- **Today's snapshot:** Status, check-in, check-out, and hours for the current workday.
- **Work details:** Department, designation, role, shift, team, and manager (tagged for clarity).
- **Assigned assets:** Preview of company assets (e.g. laptop, headset, access card).

What the employee can do

- Switch tabs: Overview · Personal · Assets · Leaves.
- Use **View all** on assets to open the full Assets tab.
- Verify day-to-day punch context without leaving the profile area.

My Info — Personal

The Personal tab presents HR master-data fields the employee may need for verification (contact, identity, and emergency contact). Presentation uses Softnox tag styling for readability.

Figure 3 — My Info · Personal tab

What the employee can see

- **Basic information:** Phone, email, gender, date of birth, joining date, employee ID.
- **Personal information:** CNIC, nationality, religion, marital status, full department path, serial no.
- **Emergency contact:** Primary contact and phone.

What the employee can do

- Review personal HR record for accuracy (view-oriented self-service).
- Navigate back to Overview / Assets / Leaves tabs as needed.

Note for leadership: This screen is designed for transparency — employees can confirm Softnox has the correct identity and contact details on file.

My Info — Leaves

The Leaves tab shows remaining leave balances against Softnox quota policy and a history of recent leave requests with status (Pending / Approved / Rejected).

Figure 4 — My Info · Leaves tab

What the employee can see

- **Balances:** Casual, Annual, and Sick remaining days (synced from Softnox leave sheet / policy).
- **Counters:** Pending, Approved, and Rejected request counts.
- **Recent requests:** Type, date range, days, and decision status.

What the employee can do

- Click **Apply leave** → to open the Apply Leave form.
- Track whether Softnox admin has approved or rejected prior requests.

Apply Leave

Apply Leave is the transaction screen where an employee submits a leave request for Softnox admin review. Balances are shown at the top; request history sits beside the form.

Figure 5 — Apply Leave form and request history

What the employee can see

- Live leave balance cards (Casual / Annual / Sick).
- Own leave request table with type, dates, days, reason, and status.
- Notification feed when a leave is approved or rejected.

What the employee can do

- Select leave type: **Sick, Casual, Annual, Unpaid**.
- Choose duration: Full Day or Half Day (days auto-calculate).
- Set Leave From / Leave To dates and enter a required reason.
- Optionally attach a supporting file (noted for later full upload release).
- Submit the request for Softnox admin approval workflow.

Employee Payslip (View / Print / PDF)

From the Dashboard payslip widget, an employee opens a Softnox-branded payslip for a past month. The layout mirrors Softnox payroll communication: earnings, deductions, net pay, tax, loans, and leave balances.
